
Description The Bibliotheca Universalis is a bibliography of the Old Testament, based on a database of 8 million items. It is also a multidisciplinary website. The company, French and European Publications Inc. is based in Tucson, Arizona, USA, and was founded in 2001 by Jack Last, Raymond Reichert and Victor Plante. The Bibliotheca Universalis is also available in French, German and Italian.

History The Bibliotheca Universalis was founded in the autumn of 2001 by Jack Last, Raymond Reichert and Victor Plante. The company's first version, which was entirely written in C++, was made available to a few beta testers in May 2002. The Bibliotheca Universalis version 2.0 was launched on April 21, 2004, and is also available in French, German and Italian. Several editions of the Bibliotheca Universalis are published every year, and were in the past also available on CD-ROM and online. The Bibliotheca Universalis 2.0 is available on CD-ROM and online. The Bibliotheca Universalis is an encyclopedia that covers the whole of the Old Testament, which is organized into 22 sections. Each section is an encyclopedia on the topic that is dealt with in that section. For example, the first section, entitled "God," contains articles on the topic "God," such as "God in the Old Testament," "God in the New Testament," etc. Some sections consist of a large number of entries, for example the section "Sumer and Akkad" contains more than 170 articles. The sections are not alphabetically listed and each article can be located by the most recent date of entry. In the section entitled "Encyclopedias", each article covers a topic in more detail. This makes the Bibliotheca Universalis a cross-disciplinary encyclopedia. The Bibliotheca Universalis also contains a database that contains the work of 8 million writers. One can find entries, ranging from the tenth century BC to the twentieth century. The Bibliotheca Universalis version 2.0 was released on April 21, 2004 and is based on Microsoft Foundation Classes (MFC). It can be accessed by using MS Internet Explorer, Netscape 4.8, AOL or Firefox. See also Bible concordance Biblical Inerrancy References External links Official website 82157476af
